Leader Technologies' Instructions for Removing the Scheduler executable

Here are simple instructions that can be used to assist end-users in removing the scheduler software developed by Leader Technologies, Inc.

Removing the Scheduler for the PowerREGISTER Registration Application

1. In Windows, open the 'Startup' items folder
2. Delete* the scheduler.exe**

* Deleting the scheduler.exe will not harm your system and is necessary to prevent the reminders reoccurring.

**Scheduler program may have a version number attached to it such as 'Scheduler V2.exe' or 'Scheduler V3.exe'
